A file review for Draper Tractor Company has been conducted to assess the previously conducted Preliminary Assessment (PA). Using the file and additional information, it has been determined that Draper Tractor Company is one of three sites being consolidated for the remedial investigation/feasibility study (RI/FS) of the North Market Street site.

Based on information available at this time which indicates that the site is currently being addressed by a state remedial investigation and has been proposed to the National Priority List (NPL), an HRS score has not been calculated for the site. Further work at the site under the CERCLA Pre-Remedial Program is not warranted.
